**From:** Don Prince, Director of Municipal Services 

**Re:** Operation Deepwater Horizon

The Florida Emergency Operation Center (EOC) has been activated and is at Level 2 (partial) with the Florida Department of Environmental Protection (FDEP) as the lead agency in handling the threat of oil to Florida's beaches and coastline.

The Governor has declared a State of Emergency (Executive Order No. 10-99 & 10-100), making it possible for Broward and other counties to recover funds related to the oil spill. The Broward EOC is closely working with the FDEP to monitor the situation. After speaking with the County EOC, I was advised – at least for now – that BP Oil and the Coast Guard would take the lead in any oil clean-up effort.

If it becomes necessary for the Town to provide support for any clean-up effort, we have contracts with Beach Raker, Grubbs and PBS&J. I contacted Grubbs and PBS&J and advised them their services may be required if BP or the Coast Guard requests our help. Both Grubbs and PBSJ are ready to respond in less than 24 hours once a Notice to Proceed is issued by the Town. Grubbs has already pre-positioned its equipment in the area and is ready to assist us.

Beach Raker, the Town's contractor for beach clean-up, has been monitoring the beach very closely. Beach Raker is working with Wesley Cich of the Department of Environmental Protection and has a preliminary plan in place should tar balls wash up on our beach. If a large amount of tar balls come ashore, a Barber Surf Rake will be used to gather all the seaweed, tar balls and debris into piles, which will then be removed for proper disposal.

Town staff will continue to monitor the situation and make preparations for the Deepwater Horizon oil spill should it become necessary for us to take action.

# STATE OF FLORIDA

## OFFICE OF THE GOVERNOR

### EXECUTIVE ORDER NUMBER 10-106

(Amending Executive Order 10-99, Amended by Executive Order 10-100,  
Emergency Management – Deepwater Horizon)

On April 30, 2010, I issued Executive Order 10-99 declaring a state of emergency due to the threat that oil leaking from Deepwater Horizon drilling platform and well poses to the State of Florida.

I found that this event threatens the State of Florida with a major disaster and proclaimed a state of emergency exists for the counties of Escambia, Santa Rosa, Okaloosa, Walton, Bay and Gulf.

As the oil continues to spill from the well and all efforts to stop the discharge have failed and may not succeed for an extended period of time, more Florida counties could be affected.

On May 3, 2010, I issued Executive Order 10-100, amending Executive Order 10-99 to include Franklin, Wakulla, Jefferson, Taylor, Dixie, Levy, Citrus, Hernando, Pasco, Pinellas, Hillsborough, Manatee and Sarasota counties in the state of emergency.

Subsequently, reports have been received indicating that oil from the spill has entered the Loop Current in the Gulf of Mexico thereby creating a potential threat to additional counties bordering the Gulf and along the Atlantic Seaboard.

As Governor, I am responsible to meet the dangers presented to this state and its people by this emergency. Therefore, by virtue of the authority vested in me by Article IV, Section 1 (a) of the Florida Constitution and by the State Emergency Management Act (Chapter 252, Florida Statutes), and all other applicable laws, I issue the following Executive Order:

Section 1. Executive Order 10-99, amended by Executive Order 10-100, is further amended to include the following additional counties for the state of emergency: Charlotte, Lee, Collier, Monroe, Dade, Broward and Palm Beach counties.

Section 2. Except as amended herein, Executive Order 10-99, as amended by Executive Order 10-100, is ratified and reaffirmed.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Florida to be affixed, at Tallahassee, this 20<sup>th</sup> day of May, 2010.

*Charlie Crist*

GOVERNOR

ATTEST:

*Jaun R. Roberts*  
SECRETARY OF STATE

FILED  
MAY 20 2010  
TALLAHASSEE, FLORIDA

Dear South Florida Elected Leaders,

Thank you to everyone who participated in yesterday afternoon's conference call on the BP oil spill. Our constituents expect us to work together every day to manage this economic and environmental disaster, and that is exactly what we will do.

It was a pleasure to talk with more than 40 of you yesterday, but if you could not make our conference call, please be assured that it was just one more step in an ongoing dialogue. I am committed to sharing real-time information to keep you informed, and to hearing your ideas on how our cities, towns and communities can plan ahead to reduce the damage if and when the spilled oil approaches the East coast.

I hope you will forward this email to your constituents and other community leaders. We will continue monitoring all federal and state responses to this spill, and will share real-time information with you as it becomes available. Monitoring this spill and its possible effects on our shores is essential for our local businesses and coastal home and condo owners.

As a follow-up to the information we shared yesterday, please find below some key contacts, hotlines and websites that may be useful to you and your constituents.

- To report oil on your shoreline: (866) 448-5816
- If you would like to volunteer to assist with cleanup: (866) 448-5816
- If you have a boat or vessel you would like to volunteer to participate in the Vessel of Opportunity Program: (281) 366-5511
- If you are a business who has sustained economic damage due to the spill and would like to submit a claim: (800) 440-0858
- To share your ideas on how to cap the well, or to contribute technological or other expertise: (281) 366-5511
- To report oil-covered wildlife: (866) 557-1401
- Official Website of the Deepwater Horizon Unified Command:  
<http://www.deepwaterhorizonresponse.com/go/site/2931/>
- Weather and spill tracking information from NOAA: <http://www.noaa.gov/>
- Florida Department of Environmental Protection:  
<http://www.dep.state.fl.us/deepwaterhorizon/default.htm>

I look forward to staying in close touch in the coming days and weeks. Please do not hesitate to contact my office with any ideas or questions.

Best Regards,

Ron Klein  
Member of Congress

**Don Prince**

**From:** Greener, Tim [tgreener@calclosetsvb.com]**Sent:** Thu 5/20/2010 4:14 PM**To:** Don Prince**Cc:****Subject:** Deepwater Horizon Oil Spill**Attachments:**

Don, as we discussed we have been monitoring the situation in the Gulf and discussing methods of oil spill clean up with Wesley Cich at Department of Environmental Protection.

Our plan is to use our Barber Surf Rakes at the weed line to pick up the seaweed and our specialized surf rakes to pile the seaweed and debris then remove everything from the beach to a special dumpster for hazard waste disposal.

We have asked Wesley to provide us with any documentation on approved practices/processes for clean-up and/or removal from the beach that may be developed by the DEP as they start to deal with the situation in the Gulf.

As for additional costs, at this time its difficult to predict the additional charges that may arise over and above our contracted fees until we know what we are required to do by DEP. However the additional costs will include things like;

1. Cost of hazardous waste containers and the disposal fees.
2. Cost of additional vehicles required to move waste from the beach to the waste container.
3. Cost of additional manpower if we are required to walk the beach and hand pick tar balls, etc.
4. Cost of any protective clothing/materials required by DEP.

Don, we will continue to keep you updated on our plans as they develop.

Also we have published a link to the DEP site on our website [www.beachraker.net](http://www.beachraker.net). for anyone who'd like to follow the situation.

Regards

## **Situation Report # 22**

Thursday, May 20, 2010 at 1200 hrs EDT

**David Halstead**  
State Coordinating Officer

### **Weather Summary:**

- According to the NOAA oil plume model, the oil spill is 70 miles southwest of Pensacola, 155 miles from Port St. Joe, and 285 miles from St. Petersburg.
- The portion of the oil plume nearest to Florida is roughly 70 miles from Pensacola. No direct oil impacts are expected for the Florida coastline in the next 72 hours. Some amount of light sheen has been entrained into the Gulf loop current, but also will not directly impact Florida in the 72 hour time frame. Light to moderate southeasterly wind flow and seas of 2-3 feet are expected across the northern-central gulf today through Sunday which will continue to provide mostly favorable conditions for deepwater operations. A passing disturbance will result in some thunderstorms this afternoon, but they should be confined to land areas. Fair weather is expected over the region through the weekend as high pressure builds into the region.

### **Current Situation:**

- **Florida beaches are open.**
- Unified Command estimates release rate of oil from Deepwater Horizon at 5,000 barrels per day.
- This event has been designated a Spill of National Significance.
- Unified Command continues with a comprehensive oil well intervention and spill response plan following the April 22 sinking of the Transocean Deepwater Horizon drilling rig 130 miles southeast of New Orleans.
- Approximately 24,700 personnel are working the on and offshore response.
- Oil-water mix recovered: approximately 8.37 million gallons
- Response vessels in use: 1,040
- Dispersant (in gallons): approximately 600,000 deployed / 340,000 available
- 17 staging areas are in place to protect sensitive shorelines:
  - AL – Dauphin Island, Orange Beach, and Theodore
  - FL – Panama City, Pensacola, Port St. Joe, and Carrabelle
  - LA – Amelia, Grand Isle, Shell Beach, Slidell, Venice, St. Mary, and Cocodrie
  - MS – Biloxi, Pascagoula, and Pass Christian

### **Florida Specific:**

- Oil Containment Boom (in feet)
  - 229,400 total deployment in Florida
  - Florida staging areas: approximately 50,300 staged
- In accordance with established plans, protective booming and boom maintenance is being conducted in the coastal areas of Bay, Escambia, Okaloosa, Santa Rosa, and Walton Counties.
- 538 BP and contract personnel are working on the effort in Florida.
- BP issued a \$25 million block grant to Florida; first priority is costs associated with booming.
- BP has issued a second \$25 million grant to Florida for a national tourism advertising campaign.
- 128 of 1,104 contracts have been activated for the Vessels of Opportunity program in Florida.
- Representatives from BP and the U.S. Coast Guard are stationed at the State EOC and at staging areas and incident command posts in Florida.
- FDEP has issued an Emergency Final Order authorizing suspension of certain parameters, allowing for an efficient and timely response to oil spill related matters.
- BP claims in Florida: 2,052 / approximately \$979,308 paid
  - Wage Loss: 1,002 claims / \$329,945
  - Loss of Income:
    - Commercial: 190 claims / \$62,633
    - Business Interruption: 83 claims / \$27,900
    - Shrimper: 69 claims / \$171,250
    - Fishermen: 210 claims / \$180,999
    - Oyster Harvester: 2 claims / \$2,500
    - Crabber: 4 claims / \$5,000
    - Recreational Fishermen: 2 claims / \$5,000
    - Rental Property: 254 claims / \$12,280
    - Charters: 152 claims / \$180,120
    - Maintenance Company: 4 claims / \$1,680

### **State Actions:**

- State Emergency Operations Center (EOC) is at a Level 2 (Partial) with Florida Department of Environmental Protection (FDEP) as the lead agency.
- Governor's Executive Orders 10-99 and 10-100 declared a state of emergency for:
  - Escambia, Santa Rosa, Okaloosa, Walton, Bay, and Gulf (10-99)
  - Franklin, Wakulla, Jefferson, Taylor, Dixie, Levy, Citrus, Hernando, Pasco, Pinellas, Hillsborough, Manatee, and Sarasota (10-100)
- Governor's Executive Order 10-101 established the Gulf Oil Spill Economic Recovery Task Force, which will facilitate efforts by Florida businesses and industries to recover from the loss of commerce and revenues due to the oil spill.
- Conducting daily conference calls with: county and emergency management partners, the Federal On-Scene Coordinator, and Mobile Unified Command.
- A 33-member Forward-State Emergency Response Team (F-SERT) is on-scene at the Unified Command in Mobile.
- The State Emergency Response Team is supporting efforts with 9 personnel at Unified Command Sector St. Petersburg and 2 personnel at Unified Command Sector Key West.
- ESF 15 – Volunteers and Donation is providing consistent messaging to Florida volunteers, "All oil-contaminated materials will only be handled by trained, paid workers and not by volunteers." 1,689 volunteers worked 7,535 hours for clean-ups along 135 miles of Florida's beaches.
- The Boom Coordination Cell continues to coordinate additional requests.
- An Innovative Technology Cell is assessing alternative clean-up technologies suggested by the public and stakeholders.
- ESF 10 – A website to view all of the consolidated State sampling data that is being collected along the Gulf Coastline is at [www.nrddata.org](http://www.nrddata.org).
- The Small Business Administration has issued an Economic Injury Disaster Loan Declaration for the State of Florida.

### **Florida Information Lines**

- ESF 14 – The Florida Oil Spill Information Line (FOSIL) is available from 8am-6pm EDT daily at (888) 337-3569.
- Mobile Unified Command has established two public hotline numbers for oil spill investigation and cleanup:
  - Impacted Wildlife: (866) 557-1401
  - Oiled Shoreline: (866) 448-5816

### **Small Business Administration, Disaster Loan Outreach Centers**

- Escambia: Small Business Development Center, 401 E. Chase St, Suite 100 Pensacola, FL 32502
- Santa Rosa: Navarre Beach Chamber, 8543 Navarre Parkway Navarre, FL 32566
- Okaloosa: Community Center Annex, 108 Stahman Ave Destin, FL 32541
- Walton: Walton Area Chamber of Commerce, 63 S Centre Trail Santa Rosa Beach, FL 32459
- Bay: Panama City Beach Chamber of Commerce, 309 Beckrich Ave Panama City Beach, FL 32407
- Gulf: Chamber of Commerce, 150 Captain Fred's Place Port St. Joe, FL 32456
- Franklin: Apalachicola Bay Chamber of Commerce, 122 Commerce St Apalachicola, FL 32320
- Wakulla: Wakulla Agricultural Center, 84 Cedar Ave Crawfordville, FL 32327

### **Local States of Emergency**

- Bay
- Dixie
- Escambia
- Franklin
- Gulf
- Okaloosa
- Santa Rosa
- Sarasota
- Wakulla
- Walton
- Taylor (Allowed to expire)

### **County EOC Activations**

- Bay, Level 2 (Partial)
- Franklin, Level 2 (Partial)
- Okaloosa, Level 2 (Partial)
- Santa Rosa, Level 2 (Partial)
- Wakulla, Level 2 (Partial)
- Gulf, Level 3 (Monitoring)
